Bend up to fit in rafter space using roof top method or down using attic side method.

Directions: Flanges bend up or down. Use opposing flanges for either 16" or 24" direction. The routed lines can be up or down also. Use minimum 4 per side 3/4" nails or screws or 1/2" staples to secure side flanges to rafters. Use a utility knife to cut around objects. Refer to SmartBaffle directions for further guidance.

Different Installation Methods For Installing SmartBaffle

Use 1/2" staples or 1" screws or 1.25" roofing nails to attach Baffles to side wood rafters. Cuts can easily be made with a retractable type utility knife. Bends can be made by cutting halfway through plastic on the side opposite the bend direction of choice.
