RevealTape by DCI

AVAILABLE IN A VARIETY OF SIZES

EASY TO CARRY 200FT SPOOLS. FITS IN YOUR TOOL BELT

1-800-622-4455

- Layout roofs with no manual measurements.
- Simple installation. Nail down tapes and align shingles.
 - Easy to see lines.
- Eliminate back shingling and reveal misalignments.
- Save time and labor. Get jobs finished 10 – 20% quicker.
 - Easy handling. 1 roll per guy.
 - Many sizes available.

Installation made easy

After the first course of shingles has been installed, using the RevealTape simply place the first line of the RevealTape at the top of the installed shingle. (*Use tape size corresponding to the shingle exposure.*)

Now, nail or staple the RevealTape to the roof as far up the roof as you can safely go.

Perform the same procedure on the opposite side of the roof.

You now have identified and know where every course of shingles will be located during that roof installation.

Snap parallel lines to connect one line of RevealTape to the other.

Install shingles on the roof, aligning the tops of the shingles with the RevealTape lines for a perfect looking roof.

Chimneys, Dormers, Skylights

The procedure for installing roofing around obstructions is now simple with RevealTape by DCI. When you reach the obstruction (Chimney, Dormer, Skylight, Etc.).

Install RevealTape along each side of the obstruction.

Simply snap lines from the first RevealTape to the “obstruction” tape and continue roofing as usual. At the end of the obstruction, your roofing shingles will align perfectly.

(Installation is Fast, Easy & Profitable!)

SPECIFICATIONS:

MODEL NUMBER: RevealTape

PRODUCT DIMENSIONS: 200 Feet per Roll. Each Roll is 1” x 4” in Diameter

MINIMUM ORDER: 1 box (30 Rolls per Box)

TERMS: Net 30
